6. Information Items

a) Staff Report- John Crago, NP MAD

The report is attached. There was a question about the trash can at University and Howard overflowing on Saturday; is that a location that fills up quickly? - Yes, per John, but that is not a MAD can.

Water overflow between Lincoln and Polk is a continuing problem.

There are no MAD trash cans on El Cajon Boulevard. John will check with the engineer (Skip) to see about the possibility of getting some, as the city won't put any additional cans in.

b) Follow up - June community request - more garbage cans

Sarah Taylor asked about trash cans last month. Per Urban Corps, there may no longer be a need for one in front of the former Starbucks location. The two trash cans there are not used as much since Starbucks left, so we could move one. The carpet place across the street would like to have a can removed from their area. John will check with Glen to see whether there is a can in storage that could be placed where there is heavy usage.

7. Action Items

Storyboards item was listed on the agenda in error.
